City island builder tycoon apk mod

City Island: Builder Tycoon - an iconic urban simulator, offering players to act in the image of the mayor. Under your responsibility is a small town, which in the near future should turn into a real modern metropolis. It is extremely difficult to implement the plan, but your deputy's advice will make the process much easier. First, you have to build residential buildings and then proceed with structures of another type. Each of your actions directly affects the lives of residents, so try to think about the next step. In terms of graphics, the authors of the project made every effort and achieved incredibly cool results. Screenshots Description: City Island Builder Tycoon - the winter version of the popular city simulator.
